Indias Largest Manufacturer And Exporter of Magnet Based High Precision Electronic Balances, Breeze Shield, Mini Printer, Motorized Calibration, Flameproof Junction Box and Standard Weights.

## About Us

Contech Instruments Ltd, an ISO 9001 2008 Company established in the year 1992 has an installation base of more than 3 lac customers all over the world.

Contech, the leading manufacturer of high precision electronic balances in India with 18 years Industry experience today offers the complete range of Electronic Balances and Weighing scales for various applications. Our range comprises of Laboratory Balances, Moisture Balances, Gem and Jewellery Balances, Super Market Scales, Health Scales, Industrial Scales, Crane Scales, Weighing Indicators, Electronic Weighbridges, Scales for special applications, etc. Company has added range of laboratory equipments like pH Meters, Conductivity Meters, Melting Point Apparatus, Polarimeters, Digital Refractometers and also X-Ray Gold Purity Testers.

Company was established by three technocrats in the year 1992. Company gradually added various models to its range of products and today has got a product range from 0.01mg Analytical Balances to 150 ton Electronic Weighbridges. Where Innovation never stops is the slogan of Contech Instruments Ltd and is synonymous with Contech having more than 100 models today. Contech an ISO 9001:2008 Company is the largest manufacturers of Electronic Balances based on Electro Magnetic Force Compensation Technology in India today and is selling more than all other manufacturers put together which only shows the market domination of Contech for High Precision Electronic Balances. Contech is the only Indian manufacturer who has developed and manufactured in true sense the complete range of Electronic Balances from 0.01mg Analytical Balances to 150 ton Electronic Weighbridges in its own setup illustrating the technical competence of the Company. Company employs more than 250 personnel and manufactures more than 30000 Balances per year today. Company has got enough infrastructure for manufacturing 3000 Balances per month.
